Alibi Training Head Office / Training Facility – 8 Dennis Road, Springwood QLD 4123

On-site Training Available
CALL TODAY – 0423 597 744

The Course:

This course in Low Voltage Electrical Work provides for Electrical workers (including air-conditioning workers, restricted electrical workers and apprentices completing final year of study) engaged with low voltage electrical power work. This course complies with the requirements of the Queensland legislation (Electrical Safety Regulation 2013) incorporating the units of competence **HLTAID001 – Perform CPR (Resuscitation)** and **UETTDRRF06 – Perform Rescue from a Live LV Panel.**

This course also satisfies the Electrical Workers (Electrician) License renewal requirements when working or employed as an electrician in Queensland.

PHYSICAL REQUIREMENTS:

It is important to note that there are physical standards which relate to the level of performance required when undertaking accredited training.

- Low Voltage Rescue is exactly that and includes measures that should be undertaken to ensure the safety of a person performing live electrical work, and may include:
 - Safe use of a LV Rescue Kit
 - Safe use of a fire blanket
 - **Removal of a victim from the source of injury and movement of an unconscious victim. (ATA uses 30 – 60kg manikins)**
- The candidate must perform at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor.
- The candidate must perform at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface.

Duration: 2 – 3 hours (Approx.)

Course length varies depending on experience of electrical worker (Electrician). We are not in the habit of telling experienced Electricians how to suck eggs. If you can prove competence, your experience and time with us is greatly reduced, a quality appreciated by many returning electrical worker clients.

Course Award:

Participants who demonstrate competency by passing the theory and practical assessment will receive a **'Statement of Attainment' for HLTAID001 Perform CPR and a 'Statement of Attainment' for UETTDRRF06 Perform Rescue from a Live LV Panel.**

How to Enrol:

There are two (2) simple methods to enrol with Alibi Training:

- Book & Pay via the website using the online calendar
- Phone Alibi Training on 0423 597 744

Additional information is available by downloading the following documents from our website:

1. Students Handbook

About Us

Hi, my name is Paul Milne, as director and owner of Alibi Training Australia, I recognise and understand the power of motivated and well-trained staff to a business, and how this investment in people drive new revenue through your door.

Alibi Training Australia are recognised training specialists for businesses needing professional employee development training. Unlike other training organisations Alibi Training provides focused delivery methods combined with progressive assessment and practical interaction, reducing the amount of time your staff is away from their roles.

I am one of the only trainers in Queensland who has electrical qualifications (Electrical Engineer Av), therefore you are being trained by a person who understands and knows the industry. I am not in the habit of telling experienced Electricians "**how to suck eggs**". If you can prove competence, your experience and time with us are greatly reduced, a quality appreciated by many returning electrical worker clients to Alibi Training.
